

# How the IDF makes its precision strikes

## Collect Intel.

Determine whether the object is a legitimate military target, according to international law

## Gather Info

Gather information on the physical characteristics of the target, as well as of the surroundings of the target, paying special attention to the civilians and civilian infrastructure.

## Assess & Input

Officers from relevant units provide professional views and advice, including a **legal** opinion and emphasis on sensitive and international sites.

Following, the IDF establishes the optimal means and methods for carrying out a potential strike.

## Decide

A senior commander may approve, suspend, or cancel an attack based on several factors, such as the principle of proportionality.

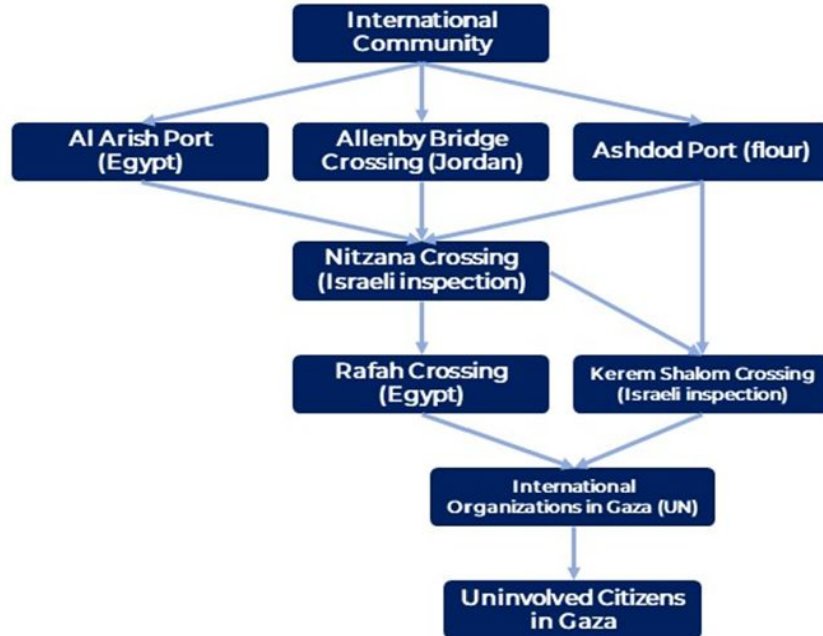

## Carry out warning procedures to mitigate harm to civilians, when possible

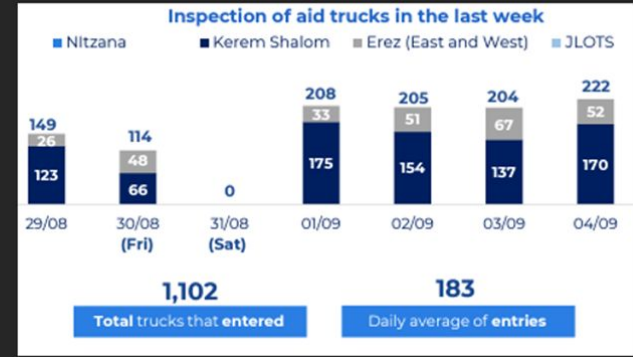

Various methods, such as:

Evacuation Phone Calls 100,000	Leaflets Dropped 9.3 Million	Text Messages Sent 15.5 Million	Recorded Messages Sent 17 Million
-----------------------------------	---------------------------------	------------------------------------	--------------------------------------

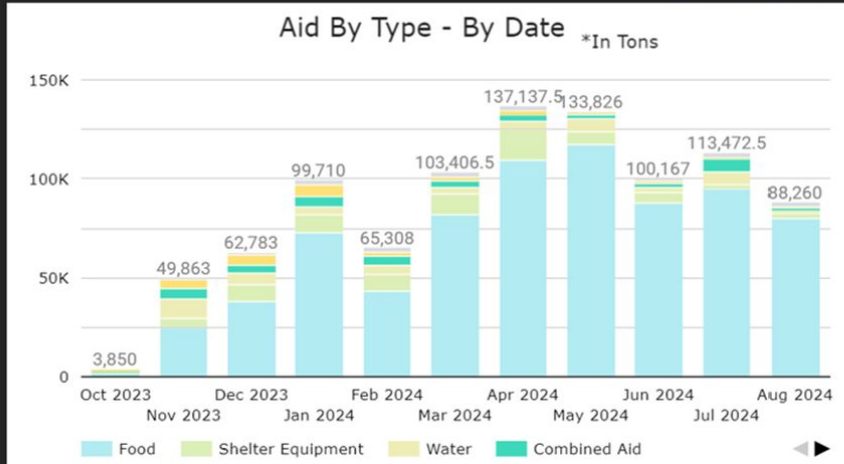

-  Making phone calls and messages to civilians in the area
-  "Knock on Roof" (non-lethal ordnance dropped on roofs as warning)
-  Waiting for civilians to evacuate
-  Real-time monitoring to ensure target is clear

## Polio Vaccination Campaign

for Children in the Gaza Strip Led by International Organizations

**September 1-3, 2024,**  
vaccinations will be administered to children in **central Gaza 6:00-14:00.**

**September 4-6, 2024,**  
vaccinations will be administered to children in **southern Gaza 6:00-14:00.**

**September 7-9, 2024,**  
vaccinations will be administered to children in **northern Gaza 6:00-14:00.**

At the end of each regional vaccination campaign, a situational assessment will be conducted for the area.

**Water for Gaza:**

35 water pumping facilities in northern Gaza were refueled following coordination. These water pumping facilities supply water to hundreds of residents in northern Gaza.
